About Cardiva Medical, Inc.

Founded in July 2002, and headquartered in Mountain View, Calif., Cardiva Medical, Inc. is a privately held medical device company focused on developing and commercializing devices which close the vascular access site with unsurpassed safety and ease-of-use. Cardiva's first product, the Boomerang Wire System, was approved in EU countries and in the U.S. in 2004. Cardiva's second-generation product, the Boomerang Catalyst System, was approved in March 2007 and launched in July 2007. The enhanced Boomerang Catalyst, trade named as "Boomerang Catalyst II System" received 510(K) clearance in September 2007 and launched in January 2008. To date, the family of Boomerang and Boomerang Catalyst devices has been used in 150,000 percutaneous catheterization procedures in the U.S. Cardiva was selected by Frost & Sullivan as the recipient of the 2006 Frost & Sullivan Award for Entrepreneurial Company in the U.S. angioplasty and vascular closure devices market.
